

**Amendments to the Specification:**

Please replace the Abstract on page 25 with the following Abstract as amended.

**Abstract**

A composite construction, such as a boat hull, ~~comprising~~uses a thermoplastic layer and a fiberglass reinforcement composite. The thermoplastic layer ~~comprises~~has an acrylic film having a thickness of 0.5 to 1.5 mm and an ABS layer having a thickness of 0.5 to 15 mm. The reinforcement may also include cured polyurethane foam stringers or logs to provide additional rigidity and strength to the construction.
